## CORE COMPETENCIES

Hattas Studios is a team of professional artists who collaborate with clients to express their visions. For over 20 years, Hattas has created thousands of custom-designed, **hand-painted murals, artworks, faux finishing, sculptures, painted signage and custom-designed wallpaper** for commercial, residential and municipal spaces in Greater Los Angeles and beyond. We can realize your design, or create an original design specific to your needs. Everyone on our team is employed, ensuring high standards, reliable service and smooth execution.

## UNIQUE ATTRIBUTES

With over 20 years of experience and nearly 5,000 custom art projects under our belt, Hattas Studios breaks every negative artist stereotype. We are a small company that executes with the expertise and efficiency of a large contractor.

How do we do it? We have full-time experts focused on the unique roles needed to deliver custom artwork accurately, on-time and on-budget. As a one-stop shop, we provide art consultations, custom designs, prep work and finishing work; and fully supervised execution from start to finish.

We use tried-and-true transfer methods to ensure the final artwork is exactly as expected, with no "wonky" surprises. And since we're AB5-compliant, our entire team is employed (*no contractors*), leading to reliable services, efficient delivery and clear communication. After all, we aren't satisfied until we've exceeded our clients' expectations.
